

Proud Moment for ICFAI University: BTTM Student Wins Third Prize at Mix and Twist Competition

On 27th February 2026, tourism students from ICFAI University Meghalaya, accompanied by faculty member Ms. Kimberley Langstieh, participated in the “Mix and Twist” Competition and Workshop held at Royal Global University.

The event was organized in collaboration with Monin Syrups, a globally recognized brand known for its wide range of premium beverage syrups used in hospitality and mixology.

The program brought together students from several colleges and universities, creating a vibrant platform for learning, creativity, and professional exposure in the field of beverage preparation and hospitality services. The workshop focused on mixology techniques, flavor combinations, presentation skills, and innovative beverage creation, which are important practical skills within the hospitality and tourism industry.

During the competition, participants were encouraged to demonstrate creativity, balance of flavors, presentation, and technical skills while preparing mocktails using Monin syrups. The event not only allowed students to showcase their talent but also provided them with an opportunity to interact with professionals and peers from other institutions.

We are proud to share that **Angelyne B. Kharkongor, a student of BTTM 8th Semester** from ICFAI University Meghalaya, secured the Third Prize in the competition. Her achievement reflects the creativity, confidence, and practical skills developed through the tourism and hospitality training provided in the department.

Participation in such events is extremely valuable for tourism students as it helps them gain industry exposure, build confidence, and develop practical hospitality skills beyond the classroom. The department encourages students to actively engage in such platforms that promote innovation, networking, and professional growth.

This achievement is a matter of pride for the Department of Travel and Tourism Management at ICFAI University Meghalaya, and we congratulate Angelyne B. Kharkongor for her commendable performance. The department also appreciates all participating students for representing the university with enthusiasm and professionalism.
